

FOR IMMEDIATE RELEASE -

CynergisTek and RedCannon Partner to Deliver HIPAA Compliant Data Mobility and Application Access

CynergisTek will be exhibiting at the 2006 Annual HIMSS Conference where they will be demonstrating RedCannon's KeyPoint Access™

San Diego, CA – (February 12, 2006) – RedCannon Security trusted provider of centrally managed, secure mobile-access solutions for the enterprise, announced today their partnership with leading information security solution provider, CynergisTek. CynergisTek will be delivering services in conjunction with RedCannon's KeyPoint Access™, a secure remote access suite, addressing compliance requirements for Health Insurance Portability and Accountability Section 164.502 (c) and Sarbanes-Oxley Act Section 404.

"Healthcare clinicians are more mobile than ever as they move between the hospital, ambulatory care settings and off campus to get their jobs done. They need to be able to access data with confidence to do their jobs effectively," stated Mac McMillan, CEO of CynergisTek. "CynergisTek is delighted to assist RedCannon in bringing the KeyPoint Access ultra-thin security and mobile storage solutions to the healthcare community. We look specifically for technology partners whose solutions are true business enablers, that advance information security objectives and meet regulatory requirements. With KeyPoint, the end user is afforded the fantastic convenience of a USB device. The IT and Compliance departments are afforded a solution that is fully customizable to reflect enterprise security policy, enables easy two-factor authentication for both the remote device and the user, offers a real-time audit log and is centrally managed. RedCannon has developed a solution that demonstrates a keen awareness of the healthcare industry's needs."

"Partnering with CynergisTek supports RedCannon's commitment to the healthcare market, and its ongoing efforts towards protecting personal and private

information. Our combined solution demonstrates that healthcare information can be stored and transmitted within secure and trustworthy USB devices," said Vimal Vaidya, CEO of RedCannon. "CynergisTek's services extend the capabilities of the KeyPoint Access solution and enable today's mobile healthcare organizations to improve productivity. CynergisTek excels at helping organizations achieve HIPAA regulatory compliance by providing strict and constant protection of private health information from unauthorized access, alteration, deletion and transmission."

CynergisTek will be exhibiting at the 2006 Annual HIMSS (Healthcare Information and Management Systems Society) Conference and Exhibition February 12 - 16, 2006 in San Diego, CA. CynergisTek welcomes you to visit them at Booth #5145 to learn about their services and solutions. HIMSS is a perfect opportunity to see the latest industry intelligence, find solutions to your most pressing professional challenges and of course network with your peers. Learn more about the event at <http://www.himss06.org/index.asp>.

About CynergisTek, Inc.

CynergisTek provides regulatory compliance solutions that enable its customers to answer the requirements of the OCC, GLBA, Sarbanes-Oxley, and HIPAA. CynergisTek also offers services in the areas of information security governance and security testing and provides technical solutions. CynergisTek is one of the few firms in the U.S. to have been designated as a qualified assessor for the Visa USA Cardholder Information Program (CISP) and as a third-party evaluator to conduct the security assessment of participants in the REALTOR® Secure Certification program.
